Don't these boys get it? How many times must they get into trouble before they catch on? Best friends William and Thomas are back at it again with even more action and adventure. The poor community of Itchygooney isn't safe when William has a plan. This time there's an attack drone, a ghostly rocking chair, a slam-dunking wizard, and a UFO. Will these boys ever be stopped? Let's hope not! Back 4 More is the fourth book in the ongoing I Told You So series of humorous stories shared in short standalone bursts. If they were any longer you couldn't handle it!

Runa (14) vertrekt vanuit Itali ë met vijftig wolven op zoek naar een veilige plek voor de bedreigde dieren. Een van hen is Rocco, die van mens in een wolf is veranderd. Het wordt een gevaarlijke tocht, waarbij wolvenhater Giacomo maar ook journalisten en de kinderbescherming haar proberen te dwarsbomen. Vanaf ca. 12 jaar.

Hundreds of thousands of racing enthusiasts rely on this essential guide for building a race-winning, high performance big-block Mopar. Includes detailed sections on engine block preparation, blueprinting and assembly.

This book addresses the essentials of an automotive audit which is required by all automotive suppliers world-wide. They are based on customer specific requirements, ISO standards, and Industry specifications. This book covers both the mandated documents and records that are necessary for compliance, with an extensive discussion on Layered Process Audits and distance auditing. The book addresses the six standards for certification in one volume. It explains " why " and " how " an effective audit should be carried out. It identifies the key indicators for a culture change with an audit, explains the " process audit " at length, discusses the rationale for Layered Process audits and summarizes all the mandatory documents and records for all standards and requirements. The book covers the issue of risk in auditing and emphasizes the role of a " checklist " in the preparation process. This book is for those that conduct audits, those that are interested in auditing, and those being audited. It specifically addresses automotive OEMs and their supplier base but is also of interest to anyone wanting information on auditing.
