Dr. Marty Becker has become known as "America's Veterinarian" because of his educational and entertaining shows and columns. For more than ten years, Dr. Becker has been the popular veterinary contributor to ABC-TV's Good Morning America and is now a member of Core Team Oz on Dr. Mehmet Oz's show. Dr. Becker will help owners solve problems and enhance their bond with their cats through a tip-filled book on everything from finding the right cat to preventing health problems and bad behavior. He will start owners off on the right foot, whether they buy a kitten or adopt an older cat, showing them how to solve the most annoying behavior and cat-care problems--from scratching furniture to not using the litter-box. (Surprising fact: did you know that black cats shed more than light-colored cats?) And he advises owners how to make their own cat toys, and how to save money on medication, both traditional and alternative.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. Prepare for a volley of laughs when Charles M. Schulz's lowly beagle takes on "the sport of kings" in this can't-miss collection of Peanuts comics. Who knew that a beagle could play tennis like a pro? In this volume of classic Peanuts comics, Snoopy serves up some skillful humor. Whether playing Linus or Lucy, he's got the skills to lob some of the best punch lines in the business. In October 1950, the first Peanuts strip premiered in seven national newspapers. Charles M. Schulz's seemingly simple creation--illustrations of large-headed kids using vocabulary and facing situations far beyond their years--became a well-known, well-loved comic strip and grew to have an enormous global impact. Though the last original Peanuts comic appeared in papers on February 13, 2000, the day after Schulz passed away in his sleep, his work continues to be read in more than two thousand newspapers around the world.
