Water Softeners | Kinetico Water Systems

Your water softener runs itself, working on demand. This means your Kinetico water softener regenerates whenever you run the water faucet or flush the toilet but not when you go on vacation, for example. However, there will be times when you need to manually regenerate your softener, for example, after adding more salt to the salt storage tank.

How Do I Change Settings on Kinetico Water Softeners? | Hunker

Kinetico water softeners first appeared on the scene in 1970 as the brainchild of two engineers in search of a non-electric means to automatically treat water. Manufactured for both commercial and residential households, Kinetico water softeners operate uninterrupted during the regeneration process and provide soft and safe water through the means of a turbine and gears instead of electricity.
