MCQs are now an established part of higher examinations and form a useful means of revision for the candidate. The questions in this book have been compiled as a result of the restructuring of the MRCP examination to allow for earlier specialization in paediatrics. Clearly laid out in the familiar MCQ format and containing approximately 350 questions grouped according to topic, this book covers all areas in paediatrics including statistics and pharmacology. Neurology, neonatology, growth and development, cardiology, respiratory medicine, gastrointestinal medicine and genetics are given particular attention. This book will give the student valuable practice in answering multiple choice questions and testing his knowledge of paediatrics. It should prove a valuable purchase for the MRCP Part 1 candidate as well as any student with an interest in the subject area.

QBase Medicine gives 5 sets of examination papers and comes with a free CD-ROM.

This 2nd Edition provides the tools necessary for candidates to prepare for the MRCPs. Contains 250 practice MCQs with detailed answers in a format that reflects the true nature of the exam. This edition is updated to include more emphasis on basic science questions as well as to include new and updated questions.
