Migraine and Headache Awareness Month 2020 | Everyday Health

The term monthly refers to an occurrence that arises at or around the same time every month. Although the body has a 24 hour cycle known as the circadian rhythm and the menstrual cycle is approximately 28 days, monthly headaches may not occur for the same reasons. Instead external factors may be the cause of these recurrent headaches and these factors may occur monthly. Monthly headaches in females of reproductive age should always be considered in the backdrop of the menstrual cycle.
