FORGET WHAT YOU KNOW ABOUT THE NATURE OF MAGIC. In a world where an industrial revolution is powered by magic, Tyen, a student of archaeology, unearths a sentient book called Vella. Once a young sorcerer-bookbinder, Vella was transformed into a useful tool by one of the greatest sorcerers of history. Since then she has been collecting information, including a vital clue to the disaster Tyen's world faces. Elsewhere, in a land ruled by the priests, Rielle the dyer's daughter has been taught that to use magic is to steal from the Angels. Yet she knows she has a talent for it, and that there is a corrupter in the city willing to teach her how to use it -- should she dare to risk the Angels' wrath. But not everything is as Tyen and Rielle have been raised to believe. Not the nature of magic, nor the laws of their lands... and not even the people they trust. AN EPIC NEW FANTASY ADVENTURE BEGINS.

From ancient ritualistic practices to modern dance theatre, this study provides concise summaries of all major theatrical art forms in Japan. It situates each genre in its particular social and cultural contexts, describing in detail staging, costumes, repertory and noteworthy actors.

It's the year 2108, and the world has a different definition of being normal. In the year 2080, the people of the world gained unique abilities and magical powers. However, with this development, the corruption of the world grew. The spread of crime and murder increased all over the world. To fight the corruption of the world, the world's governments decided to rally together, and fight against this threat. They formed an army of people who have special powers, called SP Users, and magicians to combat the corruption of the world. They called this organization The World's Army Association. Thanks to the power of the World's Army Association, corruption has decreased in the world. As a result, the world became a peaceful place and began to flourish as time passed. However, peace isn't what it seems. The world on the outside looks normal, but it's horrible and full of discernment. The corruption of the world, which people thought was gone, spread to the world's government and the army's leaders.

The paradigm of Creation Spirituality offers a fresh approach to our spiritual journeys. In "Emerging Word," Donald Schmidt provides both an introduction to Creation Spirituality for those who may not be familiar with it, as well as a quick history of lectionary use in the Christian tradition and an overview of the church year. He then sets out scripture readings for each Sunday and major festival day of the year, based on the four paths of Creation Spirituality as outlined by Matthew Fox and others. Brief commentary for each set of readings provides rationale for the choice, and further invitation to see the world, the church, the Bible, and life in a new way. Whether you are familiar with Creation Spirituality, or simply curious about some of the emerging paradigms being explored in the church today, "Emerging Word" will challenge you. Less than a statement, "Emerging Word" is more an invitation to wonder, to contemplate, and to explore the story that the church has told, is telling, and can tell, as it seeks to be relevant in today's world. What is our faith story? Where is it taking us? Where can it take us? Those are the questions "Emerging Word" places before us.

This ambitious work offers a transnational account of the deity Shinra Myōjin, the “god of Silla” worshipped in medieval Japanese Buddhism from the eleventh to sixteenth centuries. Sujung Kim challenges the long-held understanding of Shinra Myōjin as a protective deity of the Tendai Jimon school, showing how its worship emerged and developed in the complex networks of the East Asian “Mediterranean”—a “quality” rather than a physical space defined by Kim as the primary conduit for cross-cultural influence in a region that includes the Yellow Sea, the Sea of Japan (East Sea), the East China Sea, and neighboring coastal areas. While focusing on the transcultural worship of the deity, Kim engages the different maritime arrangements in which Shinra Myōjin circulated: first, the network of Korean immigrants, Chinese merchants, and Japanese Buddhist monks in China’s Shandong peninsula and Japan’s Ōmi Province; and second, that of gods found in the East Asian Mediterranean. Both of these networks became nodal points of exchange of both goods and gods. Kim’s examination of temple chronicles, literary writings, and iconography reveals Shinra Myōjin’s evolution from a seafaring god to a multifaceted one whose roles included the god of pestilence and of poetry, the insurer of painless childbirth, and the protector of performing arts. Shinra Myōjin and Buddhist Networks of the East Asian “Mediterranean” is not only the first monograph in any language on the Tendai Jimon school in Japanese Buddhism, but also the first book-length study in English to examine Korean connections in medieval Japanese religion. Unlike other recent studies on individual Buddhist deities, it foregrounds the need to approach them within a broader East Asian context. By shifting the paradigm from a land-centered vision to a sea-centered one, the work underlines the importance of a transcultural and interdisciplinary approach to the study of Buddhist deities.

Magician and teacher Ben April is looking forward to teaching at his new class at Lockley College of the Arts, but his students are not all the eager young rising stars he was expecting. There is someone who cannot speak English, someone who has an autistic condition and one who suffers from chronic stage fright. One of them is confined to a wheelchair and one is possibly being stalked. And who is Meesh?
