What do you do when desire drives you to the very brink? Someone wants the Native Americans off their sacred land. And when Navajo journalist Katherine James and park ranger Gabriel Rossiter team up to investigate why, their passion for the truth-and each other-makes them targets for those desperate enough to kill.

Three of #1 New York Times bestselling author Colleen Hoover's most irresistible books, Ugly Love, Maybe Someday, and the novella Maybe Not, gathered together in one collection for the first time. Ugly Love: When Tate Collins meets airline pilot Miles Archer, it isn't exactly love at first sight. But there is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up: he doesn't want love, she doesn't have time for a relationship, so that just

leaves the mind-blowing sex. The arrangement could be seamless, as long as Tate never asks about the past and doesn't expect a future. Maybe Someday: Sydney's perfect life is thrown into disarray when she discovers that her boyfriend is cheating on her, and she finds herself captivated by her mysterious neighbor, Ridge. Sydney can't take her eyes off him or stop listening to the passionate guitar music he plays every evening. As the music swells, they soon find themselves needing each other in unexpected ways. Maybe Not: Warren needs a roommate. Enter cold, calculating Bridgette. Tensions run high and tempers flare as the two can hardly stand to be in the same room together. But Warren has a theory: anyone who can hate with such passion must also have the capability to love with such passion. Will Bridgette find herself finally able to love?

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

A glimpse into the lives of LGBTQ migrants in Johannesburg, in their own words Seeking Sanctuary brings together poignant life stories from fourteen lesbian, gay, bisexual and transgender (LGBT) migrants, refugees and asylum seekers living in Johannesburg, South Africa. The stories, diverse in scope, chronicle each narrator's arduous journey to South Africa, and their corresponding movement towards self-love and self-acceptance. The narrators reveal their personal battles to reconcile their faith with their sexuality and gender identity, often in the face of violent persecution, and how they have carved out spaces of hope and belonging in their new home country. In these intimate testimonies, the narrators' resilience in the midst of uncertain futures reveal the myriad ways in which LGBT Africans push back against unjust and unequal systems. Seeking Sanctuary makes a critical intervention by showing the complex interplay between homophobia and xenophobia in South Africa, and of the state of sexual orientation and gender identity (SOGI) rights in Africa. By shedding light on the fraught connections between sexuality, faith and migration, this ground-breaking project also provides a model for religious communities who are working towards justice, diversity and inclusion.

Awakening in a bleak landscape, Cass Dollar vaguely recalls enduring something terrible. Having no idea how many days—or weeks—have passed, she slowly realizes the horrifying truth: her daughter, Ruthie, has vanished. And with her, nearly all of civilization. Instead of winding through the once-lush hills, the roads today see only cannibalistic Beaters—people turned hungry for human flesh by a government experiment gone wrong. In a broken, barren California, Cass will undergo a harrowing quest to get Ruthie back. Few people trust an outsider—much less one who bears the telltale scars of a Beater attack—but she finds safety with an enigmatic outlaw, Smoke. And she'll need him more than ever when his ragged band of survivors learn that she and Ruthie have become the most feared, and desired, weapons in a brave new world...

What would you do if you discovered your whole life to be a lie? Daniel Henstock thinks he's an ordinary schoolboy but on his sixteenth birthday his world is turned upside down. He is the world's first one-hundred percent genetically-engineered human - assigned the codename Tiberius - and Gregory Dryden, the man responsible, wants him back so that he can continue his deadly experiments. Running for his life, Daniel flees to New York and is forced to go 'off-grid'. In this near-future America, where the security-obsessed authorities require citizens to carry DNA cards, Daniel meets the feisty and beautiful Eleanor. But by falling for her, Daniel also puts her in terrible danger. Daniel pursues the facts about his origins but is hunted by an agent sent by Dryden to bring him to heel. Can Daniel find out the truth whilst trying to evade those who think they own him? As his enemies close in Daniel must draw on resources he never knew he had to win his freedom - but in doing so he may be walking into a deadly trap ... TIBERIUS FOUND is the first instalment in a thrilling series - The Emperor Initiative - that introduces an engaging new hero that will appeal to fans of Alex Rider and Jason Bourne.

The 21st Report summarizes and interprets data from the most recent survey, and makes comparisons with findings from previous years.

Opposites Attract...and can thrive in a marriage built on God. The book starts with the results of a survey detailing the ten most important qualities that each man or woman wants in a spouse, then teaches us how we can be the person who breeds that quality in our husband or wife. Throughout the book the authors use their own personalities and experience with marriage to demonstrate how to do marriage right.
