"This publication presents a series of practical applications of different Soft Computing techniques to real-world problems, showing the enormous potential of these techniques in solving problems"--Provided by publisher.

Described as "retro yet contemporary", the PT Cruiser is making its mark in the auto world. In this illustrated collector's volume, two leading automotive journalists dissect every facet of PT (Personal Transportation) Cruiser development, performance, and marketing. 150 color photos.

This report examines the application of plastics in European cars in the middle of the year 2000. It evaluates the changes in use and considers possible developments over the next decade. The use of plastics for specific components is examined, comparison is made between competitive materials and examples of commercial application are included. Estimates are presented for current plastics usage in European cars with forecasts to 2008.
