Resco JavaScript Bridge comes really handy when you want to visualize mobile data in a very specific way or if you need to capture more complex business logic in the application. But it wouldn't be such a powerful tool without the possibility to include the custom pages into the customization package, so they don't have to be available always online. The option to include the pages (and ...

Resco JavaScript Bridge - Resco's Wiki  
Tutorial The Resco Mobile CRM application has been translated into many languages (see list). Users of the mobile app can select their preferred language in the Setup (unless that component has been removed from the app by the administrator). Administrators can use Woodford to manage available language in the mobile app.
