## How to Survive Your Viva.

This indispensable book helps PhD candidates to understand the viva process and to prepare and present their work in the best possible manner. With concrete guidance, examples and activities throughout, it covers everything from the constitution of the PhD viva panel and how to prepare as the event draws closer to typical questions and how to answer them. Chapters are enriched with authentic case studies and insights from successful PhD graduates. This text is suitable for PhD and other doctoral degree students across all disciplines, and helpful to supervisors and examiners.

Authoring a PhD is a complex process. It involves having creative ideas, working out how to organize them, writing up from plans, upgrading the text, and finishing it speedily and to a good standard. It also includes being examined and getting published. Patrick Dunleavy has written *Authoring a PhD* based on his supervision experience with over 30 students. It provides solid advice to help your PhD students cope with both the intellectual issues and practical difficulties of organizing their work effectively. It is an indispensable and time saving aid for doctoral students in the humanities, social sciences, education, business studies, law, health, arts and visual arts, and related disciplines, and will also be a great help to supervisors.

This title, from Gordon Rugg and Marian Petre, discusses the unwritten rules of the academic world, the things people forget to tell you about doing a doctorate.

Returning in its 3rd edition, this bestselling book on the process of PhD research provides friendly, engaging, and realistic advice on how to complete your doctorate. Updated throughout, the book will guide you through the basics as well as covering aspects that other books don't usually mention, including:

- What a PhD is really about and how to do one well
- How to decipher what your supervisor actually means by terms like 'good referencing' and 'clean research question'
- How to design, report and defend your research

The authors offer an accessible, down-to-earth, and insightful account of the whole PhD process. Their advice addresses how to avoid some of the pitfalls en route to a successful submission. Key features:

- Thinking about your career from the outset of your PhD (rather than at the end)
- Tips for “ sniffing ” a paper to make your reading quicker and more efficient
- Understanding cultural differences in research
- Networking for research success
- Sensible guidelines for using social media in your research
- Guidance on project management – especially important for part-time students

The Unwritten Rules of PhD Research is essential reading for anyone considering a PhD, embarking on one, or stuck in the middle and unsure where to turn. It will tell you things many students wish someone had told them before they started. “ The course of a PhD never did ‘ run smooth ’ . This new edition of unwritten rules covers everything the doctoral student needs to know for a smoother passage with informal yet scholarly advice, ranging from improving the writing process, creating networks, completing the thesis, and even what to wear for the viva – a complete guide to the tacit guidelines sometimes left unsaid. ” Professor Jerry Wellington, University of Sheffield, UK
