A warm and surprisingly real-life biography, featuring never-before-seen photos, of one of rock's greatest talents: Prince. Neal Karlen was the only journalist Prince granted in-depth press interviews to for over a dozen years, from before Purple Rain to when the artist changed his name to an unpronounceable glyph. Karlen interviewed Prince for three Rolling Stone cover stories, wrote "3 Chains o' Gold," Prince's "rock video opera," as well as the star's last testament, which may be buried with Prince's will underneath Prince's vast and private compound, Paisley Park. According to Prince's former fiancée Susannah Melvoin, Karlen was "the only reporter who made Prince sound like what he really sounded like." Karlen quit writing about Prince a quarter-century before the mega-star died, but he never quit Prince, and the two remained friends for the last thirty-one years of the superstar's life. Well before they met as writer and subject, Prince and Karlen knew each other as two of the gang of kids who biked around Minneapolis's mostly-segregated Northside. (They played basketball at the Dairy Queen next door to Karlen's grandparents, two blocks from the budding musician.) He asserts that Prince can't be understood without first understanding '70s Minneapolis, and that even Prince's best friends knew only 15 percent of him: that was all he was willing and able to give, no matter how much he cared for them. Going back to Prince Rogers Nelson's roots, especially his contradictory, often tortured, and sometimes violent relationship with his father, *This Thing Called Life* profoundly changes what we know about Prince, and explains him as no biography has: a superstar who calls in the middle of the night to talk, who loved *The Wire* and could quote from every episode of *The Office*, who frequented libraries and jammed spontaneously for local crowds (and fed everyone pancakes afterward), who was lonely but craved being alone. Readers will drive around Minneapolis with Prince in a convertible, talk about movies and music and life, and watch as he tries not to curse, instead dishing a healthy dose of "mamma jammass."

The great contribution of Ernest Holmes to modern thought is the specific form of meditation and prayer by which man can control outward conditions of his life instead of permitting conditions to control him. Based soundly and thoughtfully upon the teachings of Jesus and other great spiritual leaders and philosophers, THIS THING CALLED LIFE is an outline of the practice of Faith by which problems of every kind may be solved by every man and woman, directly, simply and effectively. Recognised as one of the foremost teachers of religious science and philosophy since William James, in this book Mr. Holmes courageously declares that for centuries man has been putting the cart before the horse, that he is not helpless in the face of poverty, disease, evil and unhappiness, but that by this clear and simple system of thought and faith he can dominate them and introduce into his experience their exact opposites—abundance, health, good and happiness. If man will try and learn how to think, writes Mr. Holmes, he can dominate his entire life and everything in and around it.
